

AMENDMENT TO THE ABSTRACT:

Please amend the Abstract as follows:

~~The invention relates to a~~ A preformed sheet is provided with
~~comprising~~ at least two mono-layers, each mono-layer containing
unidirectionally oriented fibers having a tensile strength of at least about
1.2 GPa and a tensile modulus of at least 40 GPa, and a binder, with a
fibre direction in each mono-layer being rotated with respect to the fibre
direction in an adjacent mono-layer. A ~~[[, and a]]~~ separating film is
provided on both outer surfaces, ~~characterized in that~~ the separating film
having ~~[[has]]~~ a porosity of between 40 and 90 %. ~~With this preformed~~
~~sheet assemblies~~ Assemblies and articles with such preformed sheet offer
~~offering~~ a substantially higher ballistic protection level at a certain weight,
~~can be obtained. The invention further relates to an~~ An assembly of at
least two such sheets and ~~[[to]]~~ a flexible ballistic-resistant article
~~comprising said~~ which includes such an assembly are also provided.
